The Anoles (Sauria, Iguanidae) of the Lesser Antilles (Bulletin of the Museum of Comparative Zoology, v. 143, no. 1)

James D Lazell

The Anoles (Sauria, Iguanidae) of the Lesser Antilles (Bulletin of the Museum of Comparative Zoology, v. 143, no. 1) James D Lazell

This is quite a rare periodical, published by Harvard University's Bulletin of Comparative Zoology. For any students or keen laymen, this is a valuable source of information on the Caribbean anoles. Many of the species currently in captivity and in breeding programs come from this area, so it is helpful in this respect. The author spent many months in the field in order to compile all of the information found in this bulletin. Of particular note are the copious color plates illustrating all of the species dealt with in the text. Includes helpful maps of the islands visited and where field work was done. All in all, a singular scientific study of the fascinating Caribbean (West Indies) anole species.
