Gods of Eden: Egypt's Lost Legacy and the Genesis of Civilization Andrew Collins

A groundbreaking historical documentation of the secret history of pre-Pharonic Egypt and the race of angels that built it.

- By the author of *From the Ashes of Angels* and *Gateway to Atlantis* (more than 30,000 copies sold in the United Kingdom).
- Unlocks the secrets of how the Great Pyramids and the Sphinx were built.
- Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records.
- Proves the foundations of ancient astronomy 10,000 years ago.

Hidden deep below Egypt's Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid, one of the seven wonders of the world. Built using a technology unequaled even today, the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as *Zep Tepi*, the First Time.

In his earlier companion book *From the Ashes of Angels*, renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods, who were the flesh and blood members of a race of fallen angels, founded ancient Egypt. Now, in *Gods of Eden*, he describes the remarkable achievements of their culture.

Assembling clues from archaeology, mythology, and religion, Collins shows us how this great society mastered acoustic technology and employed the use of sound to raise heavy objects into the air and pierce holes through solid rock. It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide. With findings based on more than 20 years of research and scholarship, Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization.
