Bezalel Peleg, Peter Sudhölter

Introduction to the Theory of Cooperative Games (Theory and Decision Library C) Bezalel Peleg, Peter Sudhölter

This book systematically presents the main solutions of cooperative games: the core, bargaining set, kernel, nucleolus, and the Shapley value of TU games as well as the core, the Shapley value, and the ordinal bargaining set of NTU games. The authors devote a separate chapter to each solution, wherein they study its properties in full detail. In addition, important variants are defined or even intensively analyzed.
