Equine Reproductive Physiology, Breeding and Stud Management (Cabi)

M. C. G. Davies Morel

Equine Reproductive Physiology, Breeding and Stud Management (Cabi) M. C. G. Davies Morel

This third edition of the highly successful textbook is updated throughout and printed in two colors in a new larger format. Coverage includes the reproductive anatomy, endocrine control and selection for breeding of both the mare and stallion, and also pregnancy, parturition and lactation in the mare. This comprehensive text goes on to study how this knowledge can be applied to the successful breeding of horses, maximizing both productivity and animal welfare. It has also been expanded to include more recent experimental work and updated references, including a brand new chapter on the significant developments in embryo technology. This widely popular textbook is an essential addition to the collections of both students in equine science and practicing veterinarians.

- * Extensively illustrated with over 240 diagrams and photographs
- * New larger format printed in two colors throughout
- * New coverage of developments in embryo technology
- * Updated references
