Learn how common medical conditions can affect the course of the dental treatment a patient receives. This updated, concise reference provides the information you need to provide appropriate dental care to any patient, regardless of existing medical conditions. Featuring vivid illustrations and well-organized tables in each chapter, this text gives you the in-depth details and the overall summaries you need to get to the root of your patients' needs.

- **Organization of medical conditions** provides a brief overview of the basic disease process, epidemiology, pathophysiology, signs and symptoms, laboratory findings, and currently accepted medical therapy of each disorder. This is followed by a detailed explanation and recommendations for specific dental management.
- **Coverage of dosages, side effects, and drug interactions** with medications used in dentistry, including those used during pregnancy.
- **Chapters focusing on major health problems in the US and other nations** include, ischemic heart disease, smoking and tobacco use cessation, sleep-related breathing disorders, sexually transmitted diseases, diabetes mellitus, and psychiatric disorders.
- **Dental management summary table** summarizes important factors for consideration in the dental management of medically compromised patients.
- **Appendix on the therapeutic management of common oral lesions** provides a quick reference to the causative factors, clinical description, currently accepted therapeutic management, and patient education regarding common oral conditions.
- **Appendix on alternative and complementary drugs** looks at herbal remedies, specifically efficacy, adverse effects/reactions, medical problems, drug interactions, and dental implications.
- **NEW! Chapter on drug and alcohol abuse** discusses the effects of marijuana, cocaine, amphetamines/methamphetamine, and alcohol, along with considerations for both medical and dental management.
- **NEW! 2009 AAOS statement on Antibiotic Prophylaxis for Bacteremia in Patients with Joint Replacements** provides recommendations to supplement practitioners in their clinical judgment regarding antibiotic prophylaxis for patients with a joint prosthesis.
