MasterPass Series This book aims to provide an easily accessible quick reference guide for advanced nursing students preparing to undertake practical examinations to assess advanced clinical practice competence and students preparing for practical examinations in non-medical prescribing assessment. These examinations are commonly known as objective structured clinical examinations (OSCEs). The book is a preparation and revision tool designed to be read in conjunction with any recommended core clinical textbooks: however along with giving students step-by-step instructions on performing well in OSCE scenarios it also gives guidance to academic staff on preparing to teach and mark OSCEs. This book uses a case study approach to OSCEs in a coherent consistent and easily understandable style. Both authors are clinical academic nurse practitioners who regularly work in clinical practice in conjunction with teaching advanced nurse practitioner and non-medical prescribing students. 'I welcome the publication of this book as a contribution towards raising the overall standard of advanced nursing practice and to achieving greater national consistency. This very practical and well researched book will prove an invaluable resource for those preparing for OSCEs whether as a student examiner or lecturer.' *Jenny Aston in her Foreword For more information on other titles in this series please click here*
