**Coldplay: Look at the Stars** Gary Spivack

The riveting story of how Coldplay conquered America.

## COLD PLAY

Known as much for their personal integrity as for their dramatically original sound, Coldplay has skyrocketed to superstar status since the release of their stunning debut album, *Parachutes*. Their follow-up, *A Rush of Blood to the Head*, which went multiplatinum like the first, was still selling 40,000 copies a week even a year after it first topped the charts, and the band sells out the world's largest arenas.

But life wasn't always so glorious for these boys from Britain. Plagued during their early years by self-doubt, the foursome has broken up, backed out of high-profile gigs, even choked onstage in front of a roomful of industry types. Now, for the first time, the highs and lows of their life on the road to superstardom are revealed. This is the story behind the angst and despair that nearly ripped the band apart just as they were perched on the brink of galactic success. It is a chronicle of Coldplay's transformation from a flailing, insecure band into the two-time winners of the Grammy Award for Alternative Album of the Year and one of the most powerful international rock acts around.

Penned by an industry insider who has toured extensively with the band -- and including never-before-seen photos and exclusive quotes from the group -- *Coldplay: Look at the Stars* puts you on the tour bus, in the studio, and backstage with four men who've won over the hearts of millions of music fans worldwide.
