Cruising the Inland Waterways of France & Belgium (17th Edition)

Brenda Davison

Cruising the Inland Waterways of France & Belgium (17th Edition) Brenda Davison

With almost 10,000 km of interconnected navigable waterways, France & Belgium offer a stunning variety of cruising areas. From the wide open plains in the north, via the majestic rivers and deep valleys through mountain ranges to the vineyard fringed banks of the Canal du Midi in the south a route can be taken through the heart of France, visiting important cities and historic towns along the way. Since 1975 the Cruising Association has published this guide as a supplement to the commercial guides which are infrequently reprinted. It is a co-operative and voluntary venture, relying on input from its many cruising members who report their discoveries and report their experiences. This 17th edition has been thoroughly revised and updated. The variety of cruising is reflected by many new photographs. There are many new maps and much fresh information including the availability of fuel, chandlery, repairs with telephone numbers and websites and a comprehensive list of sources of further information.
