Yen and Jaffe's Reproductive Endocrinology: Physiology, Pathophysiology, and Clinical Management

Jerome Strauss, Robert Barbieri

For more than 25 years, Reproductive Endocrinology has stood as the premier reference on the functions and disorders of human reproduction. Now a New Edition returns with all of its traditional strengths-coupled with the very latest information! Updated throughout, the 5th Edition features the work of new editors Jerry Strauss, MD, and Robert Barbieri, MD-leaders in the field of reproductive endocrinology. Together, with a team of internationally recognized experts, they explore what readers need to know to successfully diagnose and manage virtually every reproductive endocrine disorder.

- Includes 13 totally new chapters that cover today's hottest topics.
- Features 24 chapters with new topics or new authors that explore topics shaping today's practice.
- Covers the full spectrum of reproductive pathophysiology and disorders, from pregnancy and birth to reproductive aging
- Offers a new section on reproductive technologies that emphasizes the advancements in reproductive technology, including in vitro fertilization * intracytoplasmic sperm injection * genetic techniques that are applied to gametes and embryos * new approaches to using recombinant gonadotropins to induce ovulation * and endocrinology of aging in females and males.
- Discusses hot topics such as the treatment of andrology, gamete biology relevant to assisted reproductive technology, the endocrinology of aging, and hormones and cancer.
- Features a reorganized and streamlined design for greater ease of use
