Biochar for Environmental Management: Science and Technology

Biochar for Environmental Management: Science and Technology

Biochar is the carbon-rich product when biomass (such as wood, manure or crop residues) is heated in a closed container with little or no available air. It can be used to improve agriculture and the environment in several ways, and its stability in soil and superior nutrient-retention properties make it an ideal soil amendment to increase crop yields. In addition to this, biochar sequestration, in combination with sustainable biomass production, can be carbon-negative and therefore used to actively remove carbon dioxide from the atmosphere, with major implications for mitigation of climate change. Biochar production can also be combined with bioenergy production through the use of the gases that are given off in the pyrolysis process. This book is the first to synthesize the expanding research literature on this topic. The book's interdisciplinary approach, which covers engineering, environmental sciences, agricultural sciences, economics and policy, is a vital tool at this stage of biochar technology development. This comprehensive overview of current knowledge will be of interest to advanced students, researchers and professionals in a wide range of disciplines.

From reader reviews:

Tom Johnson:

Here thing why this Biochar for Environmental Management: Science and Technology are different and trusted to be yours. First of all studying a book is good but it really depends in the content of computer which is the content is as tasty as food or not. Biochar for Environmental Management: Science and Technology giving you information deeper including different ways, you can find any publication out there but there is no book that similar with Biochar for Environmental Management: Science and Technology. It gives you thrill reading journey, its open up your own personal eyes about the thing which happened in the world which is maybe can be happened around you. You can easily bring everywhere like in area, café, or even in your way home by train. In case you are having difficulties in bringing the printed book maybe the form of Biochar for Environmental Management: Science and Technology in e-book can be your alternative.

Edward Johnson:

This book untitled Biochar for Environmental Management: Science and Technology to be one of several books this best seller in this year, honestly, that is because when you read this reserve you can get a lot of benefit on it. You will easily to buy this particular book in the book retail outlet or you can order it through online. The publisher on this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Smartphone. So there is no reason for your requirements to past this book from your list.

Debra McGregor:

Reading a book to be new life style in this 12 months; every people loves to study a book. When you examine a book you can get a lot of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your study, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, and soon. The Biochar for Environmental Management: Science and Technology will give you new experience in reading through a book.

Joseph Mesta:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book has been rare? Why so many problem for the book? But just about any people feel that they enjoy for reading. Some people likes examining, not only science book and also novel and Biochar for Environmental Management: Science and Technology or others sources were given knowledge for you. After you know how the truly amazing a book, you feel want to read more and more. Science e-book was created for teacher or students especially. Those publications are helping them to put their knowledge. In other case, beside science publication, any other book likes Biochar for Environmental Management: Science and Technology to make your spare time more colorful. Many types of book like this.
