Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series)

This casebook is intended to support professionals who are working in a variety of contexts to use classroom-based assessment more effectively to support teacher learning and teaching change, and to enhance the opportunities for all students to develop mathematical power. It grows out of a collaboration of mathematics teachers and teacher educators, and mathematicians, to better understand the role of assessment as an ongoing activity to help teachers reshape their own teaching practices. At the heart of each case is using assessment to make sense of what students understand and what they are confused about, deciding what counts as evidence of that understanding, and using the analysis to consider what the teacher's next instructional moves might be.

All of the cases in this volume are built around actual episodes from mathematics classrooms. Intended as decision-making exercises, they present the raw data of classroom events in a straightforward way and are designed to stimulate analysis and reflection; provoke various and sometimes conflicting interpretations of an event; bring to the fore deeply held beliefs of beginning and experienced teachers so they can be reconsidered; and engage professionals in pedagogical problem solving in the context of complex classroom settings.

This volume reflects the growing interest in cases as a pedagogical tool in teacher professional development. The cases are organized to take up key themes of the NCTM Professional Teaching Standards in ways that will assist and support teachers, teacher educators, and curriculum and staff development specialists in learning to assess and in linking assessment with curriculum, teaching, and learning. Although each case contains many ideas for linking assessment with curriculum and instruction, the most powerful use of these materials resides in their design intended to foster conversations among groups of professional colleagues. The editors' field-testing of the cases--in initial teacher certification courses and in in-service workshops--has shown that they prompt engaging and demanding analysis through a variety of analytic lenses.

A videotape containing vignettes for four of the cases in the *Casebook* is available with this book. Transcriptions of the video vignettes are printed in the case materials in the book. Course instructors and professional development facilitators will need both the *Casebook* and the videotape and should order the Casebook/Video set. The video can also be ordered separately.

Download and Read Free Online Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series)

From reader reviews:

Ashley Taylor:

The book Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series) make one feel enjoy for your spare time. You need to use to make your capable considerably more increase. Book can to become your best friend when you getting strain or having big problem with the subject. If you can make reading a book Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series) to be your habit, you can get far more advantages, like add your capable, increase your knowledge about several or all subjects. You could know everything if you like available and read a guide Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series). Kinds of book are several. It means that, science book or encyclopedia or some others. So , how do you think about this publication?

Irving Gaston:

What do you consider book? It is just for students because they're still students or it for all people in the world, what best subject for that? Simply you can be answered for that issue above. Every person has various personality and hobby for every other. Don't to be forced someone or something that they don't need do that. You must know how great as well as important the book Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series). All type of book is it possible to see on many resources. You can look for the internet methods or other social media.

Darla Kemp:

The actual book Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series) has a lot info on it. So when you check out this book you can get a lot of benefit. The book was compiled by the very famous author. This articles author makes some research ahead of write this book. That book very easy to read you can find the point easily after reading this book.

Victor Dinh:

What is your hobby? Have you heard that question when you got students? We believe that that issue was given by teacher with their students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person similar to reading or as looking at become their hobby. You have to know that reading is very important and also book as to be the factor. Book is important thing to incorporate you

knowledge, except your personal teacher or lecturer. You see good news or update concerning something by book. Many kinds of books that can you take to be your object. One of them is this Using Assessment To Reshape Mathematics Teaching: A Casebook for Teachers and Teacher Educators, Curriculum and Staff Development Specialists (Studies in Mathematical Thinking and Learning Series).
