The World Before (The Wess'har Wars) Karen Traviss

*Three strikingly different alien races
greeted the military mission from Earth
when it reached the planet called Bezer'ej.*

*Now one of the sentient species
has been exterminated—and two others
are poised on the brink of war.*

The fragile *bezeri* are no more, due to the ignorant, desperate actions of human interlopers. The powerful *wess'har* protectors have failed in their sworn obligation to the destroyed native population—and the outrage must be redressed.

But those who are coming to judge from the World Before -- the home planet, now distant and alien to the *wess'har*, whose ancestors left there generations ago -- will not restrict their justice to the individual humans responsible for the slaughter. Earth itself must answer for the genocide. And its ultimate fate may depend on a dead woman: former police officer Shan Frankland, who became something far greater than human before destroying herself in the vast airless depths of space.
